

INSTALLATION INSTRUCTIONS

Part Number: SU-8023

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

INSTALLATION:

1. Remove the air box lid and remove the air filter. You will reuse the hardware removed in this step.
2. Remove the factory o-ring from the air box lid. It will not be used with the K&N® FILTERCHARGER® (FIG. 1)
3. Wipe out any dirt or dust that may be inside the air filter housing.
4. Install the K&N® FILTERCHARGER® into the airbox base. (FIG. 2)
5. Install the air box lid, ensuring that the filter is seated properly, and tighten the screws.
6. Clean an area on the air box and apply the K&N Stop Decal. The decal will help notify others, who may be working on this vehicle, that this is a washable/re-usable air filter.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.

CLEANING:

K&N Engineering, Inc., suggests checking the air filter element periodically for excessive dirt build-up. Depending on your driving conditions, we recommend cleaning your air filter every 50,000 miles. To clean and re-oil, purchase our filter Recharger® service kit, part number 99-5050 or 99-5000 and follow the easy instructions.
